

Datasheet

Baobab Oil

General Information

Botanical name	Adansonia Digitata
Process of obtaining	Cold pressure
Organ used	Seed
Vernacular name	Gouye (tree) Gif (seeds)
Quality	Pure and natural, with no chemical treatment
Oxidative potential	Insensitive, oxidative stability
Country of Origin	Senegal
Source	Wild

Characteristics organoleptiques

Appearance	Liquid at 25 ° C
Color	Clear - yellow (4 + according to the color scale Gardner)
Odor	Weak, characteristic
Taste	Typical

Physico-chemical characteristics

Density	0,917 g/ml
Saponification number	208,4 mg KOH/g
Peroxides number	0,78 meq Ossigeno attivo/kg
Iodine number	83,6 g/100 g
Acidity in oleic acid	0,42 g/100 g

Storage

Stable vegetable oil. Store in a dry place, away from heat and light.
